{giveaway} Sahale Snacks

February 6, 2010

"The **Glazed Cashews with Pomegranate and Vanilla** ... is such a great combination of flavors that I'm surprised it's not more common! The glaze is light, and not too sweet, but provides just enough to make it a satisfying snack. The second bag we tried was the **Soledad Nut Blend**, with apple, flax seeds, date, balsamic vinegar, and red pepper. Wow! This is like nothing I've ever tasted before – a little sweet, a little salty, and a lot of flavor. If you're looking for a really satisfying snack that's healthy and packs a great crunchy-chewy-nutty-fruitiness, this is the one for you. :)"

"These **Glazed Pomegranate and Vanilla Cashews** completely hit the spot and would taste amazing as a **late night study snack**.

All I can say is that the **Almonds with Cranberries, Honey + Sea Salt had me at hello.**

"The combination of sweet and salty made my taste buds jump for joy. The Orange Blossom Honey glaze is an exquisite ingredient that makes these almonds taste a million times better than the average, bland almond. Mix this delicious glazed nut blend into a warm bowl of oatmeal."

"I have been trying these nut blends on salads, on stir fries and just as plain snacks.

They are delicious any way you eat them. I

found that all of the blends are sweet, but not too sweet. Just the perfect amount."

"**Soledad Almonds:** ...The flavor is totally balanced and nothing overwhelms. Sweetness from the apples leads into a well-rounded and complex flavor profile. The aftertaste is just the tiniest bit of heat – a nice little kick!

Cashews with Pomegranate and Vanilla: Okay, I gotta admit I was skeptical at first. But wow, guys, these sort of blew my mind! Very sweet but also complex. Such amazing flavors! The only problem I have with these is my potential to eat the whole bag."
